drawer - systems

pharmacy and storage

Individual layout

Design options according to your specific desires and requirements

Flexible components

Extremely flexible due to many dimensions in depth and width

Quick mounting

Quick and easy installation and hassle-free repositioning in case of moving or remodeling

Drawer-systems for pharmacies and general supply inventory

KUNESA, who in 1967 introduced the very first drawer cabinet, is the world leader in the construction of drawer-systems for pharmacies.

The constant dialogue with our customers as well as the use of modern technology and materials form the basis for continuous developments and innovations of this product.

The resulting technical expertise accumulated over many years is obvious in all details of the state-of-the-art KUNESA drawer cabinet:

- Drawers and telescopic extensions are made from anodised aluminum
- High-precision bearings covered with polyamid
- Use of see-through bottoms
- 24 standard sizes, special dimensions upon request
- Individual design of the frontplates
- Integrated lettering system
- Standard equipment includes the cross-dividers

Because of the qualities of its non-rigid aluminum rails the unique KUNESA drawer-system has been awarded the GS-sign, which certifies its high level of safety.

Accessories for our professional equipment

We offer numerous organising accessories to make our drawer systems even more efficient:

- Customized cross-dividers and cardholders for different applications are enclosed with our drawer systems
- Front plates can be equipped with a lettering system
- Punch cards for individual labeling.

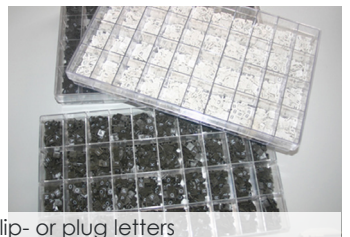

In our factory in Weiskirchen, Germany we also manufacture many organisation accessories for drawers of all kinds.

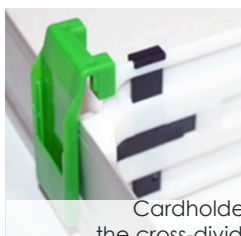

Cross-dividers

Lettering strips for our clip- or plug letters

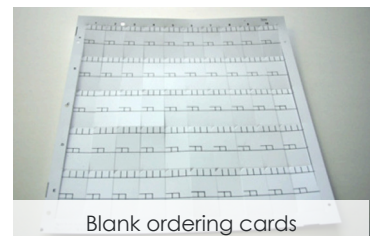

Supplement divider to stabilize the cross-dividers

Cardholders to stabilize the cross-dividers and side rails

Wide range of cardholders

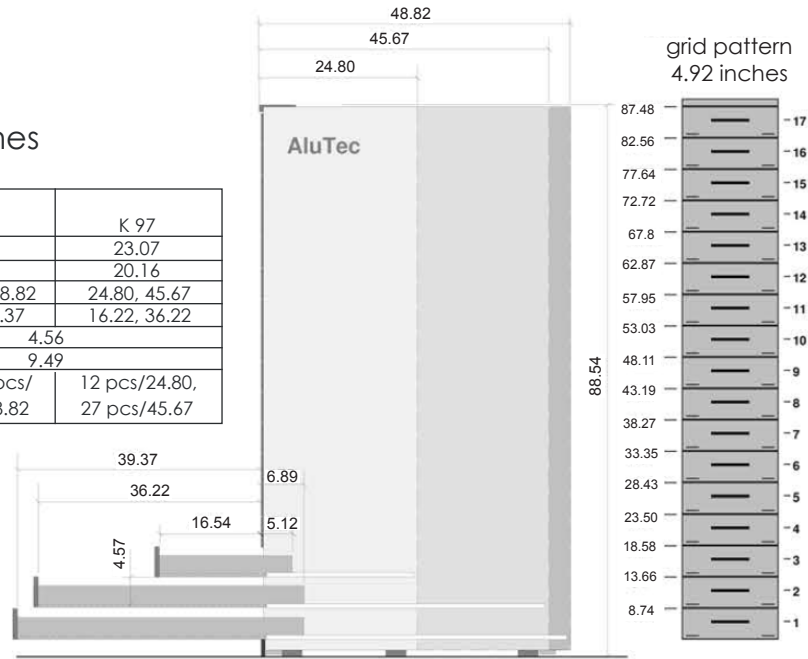

Blank ordering cards
